procurei na teoria de grupos operativos of the instruments of Enrique Pichon-Rivier. the emergence of de mind of the rede de vinculos e relaÃ§Ãµes sociais complex. (Gaiotto & O. Cordoso, 2008) [13]. Thus, in this work, we have tried to show that social emergence as a whole is the result of the activities of social groups, and that these groups can be considered as complex social complexes in which the various interactions of participants are at the same time the result of their interaction and the interaction between them. At the same time, it seems important to us to emphasize that emergent properties are not completely independent of the properties of actors.
