What's New In TRINX Maker Pro?

Make your own GIF Rotating Images in just minutes! Customize your images as you create your own GIF. Rotate your images to create a custom GIF. Save your GIF as a Windows Animated GIF or GifX file. Make your own GIF Rotating Images in just minutes! Using a simple graphical interface, Trinx Maker Pro allows you to create your own rotating images in minutes. Just choose your two favorite images, put the head of your image on top of the tail of your image, and Trinx Maker Pro will create your own animated GIF images. Trinx Maker Pro has a simple interface, and once you get familiar with it, you'll find that creating your own rotating images is incredibly easy. Customize your images as you create your own GIF Although Trinx Maker Pro is designed to create images that are a specific size, you can also use it to create images that are any size. To do so, just enter the dimensions of your image in the File Menu. Use Trinx Maker Pro's built-in animation feature, or get more creative by saving your images in the GifX format. Rotate your images to create a custom GIF A GIF animation is designed to loop an image infinitely. There are a few ways you can create a GIF animation, but the easiest way to create a custom animation is to rotate your images. The animation you create will loop automatically. To do this, select the images you want to include in the animation, and then select the Image > Transform > Rotate menu item. From there, you can select how many degrees to rotate your images, and enter the number of frames you want to create. You can create as many frames as you want, from one to hundreds of frames. If you choose to animate an image, Trinx Maker Pro will create a scrolling image. Save your GIF as a Windows Animated GIF or GifX file Because the GifX format is used to store animated GIF files, you can store your animated GIF images in the GifX format. Because the GIF format is widely supported, you can send them to anyone who doesn't have the latest version of the Internet Explorer browser. Create your own GIF Rotating Images in just minutes! Trinx Maker Pro is extremely easy to use. Within minutes of installing, you'll be creating your own rotating images. Simply choose your two favorite images, and then choose the File Menu > Create > Trinx Maker Pro from the menu. You'll be asked to enter the dimensions of your image, and then select two images that you want to use. Now you're ready to create your own GIF. Once you've created your rotating image, save it as a GifX file by selecting the File Menu > Save as... > GifX. Trinx Maker Pro is free software, and doesn't
