Another one of the Goodies program, Anti-Virus Pro is a standout when it comes to internal and network protection, with a built-in scanner, file integrity checker, automatic updates, an Internet scanner and a basic firewall. The interface is quite modern, simple and intuitive and does not include a lot of frills which generally don't add much value to users. Like the preceding program, it is possible to save online resources, keep the configuration options in the registry, a

---

lot of useful information like the location and name of the executable files, a history list and the malicious URLs that visited or a search of suspicious or unknown files. It is certainly not the most up to date product when it comes to protection technologies, but it offers a satisfactory level of protection, with a basic scanner and good detection rates for viruses. Another good advantage of Anti-Virus Pro is that you can install multiple components simultaneously. The program can be a good choice for medium and small businesses, but it is probably not good for heavy-duty work. A fairly reasonable performance is exhibited as well, especially with a fast machine and moderate to low security requirements. Help contents are available online and can be accessed right from
