## Loan Payoff Calculator

Loan Payoff Calculator is a simple application you can use to make some quick financial calculations. If you're thinking about taking out a loan, you can consult this tool to get a general idea about how much money you would have to pay with the minimum amount of monthly installments and how much you would save by paying extra. Modern UI app for newer Windows It's specially designed for desktops, tablets, notebooks and laptops running Windows 8, 8.1. and 10, including touch-supported devices. Also, the tool is signed by Microsoft, so you can download and install it from the Windows Store with little effort. Wrapped in a Modern UI, Loan Payoff Calculator has a dark theme and shows all options in plain sight, so you don't have to open menus to find more settings. Set the principle balance and interest rate, minimum and extra payment There are three main parts: inputting loan information, viewing the total interest paid and savings, and viewing the payoff illustrator in a chart that gives you a visual rundown. In the first column, you can enter the principle balance and interest rate, along with the minimum and extra payment, then click the Calculate button. View the total paid interest with minimum and extra payment, plus savings Information is displayed in the second column, where you can find out the total interest paid using just the minimum payment or with the extra payment, as well as total savings. There are no options implemented for copying or saving these details to file, but you can take a screenshot of everything and share the image with another installed app. Had stability issues in our tests Unfortunately, Loan Payoff Calculator kept hanging on Windows 10 during our evaluation when attempting to set loan information. But when it works, it's fast and delivers accurate information. It doesn't bring anything new to the table, though. Loan Payoff Calculator is a simple application you can use to make some quick financial calculations. If you're thinking about taking out a loan, you can consult this tool to get a general idea about how much money you would have to pay with the minimum amount of monthly installments and how much you would save by paying extra. Modern UI app for newer Windows It's specially designed for desktops, tablets, notebooks and laptops running Windows 8, 8.1. and 10, including touch-supported devices. ### What's New in the?

One of the most important things is to get a new home, and when this is getting troublesome, one can use this calculator for that. You just need to enter the loan amount, and the interest rate, along with the additional amount of payments. Then the calculator will give you the results regarding the amount of monthly payment and savings. Explore the tool's other features:

- Loan Payoff Calculator supports versions of Windows from 8 to 10.
- Because it has the Modern UI, there's no reason to enter information manually.
- You can quickly switch to the desktop and lock/restart the PC.
- The program provides in-depth information about the results and different factors.
- You can easily copy/share the information on the screen.
- The program's application bar buttons can be rearranged.
