"Rise of the Third Power" is an original fantasy role-playing game with dialogues written by the English voice actor of the lead character, Jack Sparrow, and contains no character name themes. "Rise of the Third Power" can be played without a date; however, the game can be enjoyed more as a single-player adventure if the player has a good understanding of traditional fantasy role-playing games and enjoys a good laugh at the bizarre world that a player travels through. The player chooses the race and gender of his or her character, and then creates a title to call the character. The game features a world where space and time exist in their own loops and where humanity can exist in their own time. At the beginning of the game, the player goes through a "blinking" scene with a bumbling protagonist and uncovers a black ooze, which is not yet revealed to be a deity. The player arrives in the capital city of a kingdom in the time-loop. The player then has a conversation with the ruler of that kingdom about religion and other topics. After the "blinking" scene is over, the player has to save the land from a criminal activity that the prince orders for a reward from the gods. The player must also enter the dungeons of a forgotten part of the kingdom to find keys for opening locked doors. On the way to the dungeons, the player meets other people in the time-loop such as the princess's family, a NPC's assistant, a village elder, a mechanic, and a stone mason. The player's journey includes tasks such as finding the princess and a dragon-proof cave that is said to have magical jewels, as well as rescuing the princess's parents and death trap area. As the player approaches his or her goal, he or she meets various characters, solves various puzzles, and collects ornaments that he or she can take to the king to collect a reward from the gods. Rise of the Third Power contains 12+ hours of gameplay and is estimated to take one to two years to complete. There is also a "Best of" event that allows the player to get special gifts from the gods at the end of the game. Soundtrack The soundtrack for "Rise of the Third Power" is composed of 31 pieces by Masakatsu Miyata who is known for composing the music for
