Easy to find your favorite tracks: Musicase is a search engine and player for music on the Internet. Enter the title of a song, artist or album, the search will start and show you all available sources for the song in less than a minute. Keyword Search: Musicase provides you with a search field, the search should narrow down the search results. To be able to do that, Musicase has been designed to work with a large database of over 20 million song tracks. Easy to download, even with a slow connection: Musicase has a well-thought out download algorithm that will never get stuck even if you have a slow connection. You can select a destination for the file and it will resume its download when the transfer is complete. Easy to organize your music: The songs can be sorted in several ways, there is also a music player included. If you like an album or artist you can mark it as favourite or add it to your playlist. Musicase even has a reminder feature to tell you when a track you added has been added to your playlists. I have to applaud the developer for a very nice and simple program that really does what it's supposed to. Zooey Deschanel isn't the only big name who had a tough fall. "The Leftovers" star Carrie Coon, who played the head of the Guilty Remnant on the HBO drama, suffered a few setbacks in 2017. Coon's first starring film, "The Sisters Brothers," turned out to be a bizarre comedy about two gay convicts who escape prison in 1880s New Orleans. Released in October, the film received bad reviews and grossed just over \$10 million at the worldwide box office. Now, Coon says the film had unexpected costs. "They didn't shoot the punch-up scenes," Coon told Entertainment Weekly. "They shot a lot of really funny scenes, but we cut most of them. So the movie is not very funny." A few months later, Coon says she was cast as a mother on "The Leftovers," and she was sent to do prep for the role. The actress learned she had breast cancer. "At that time, I had my little boy, it was difficult because of scheduling and availability, but I was in the production schedule and I had a production company that could take on the
