Jennifer Chevalier, daughter of a wealthy French businessman, becomes enmeshed with a ghostly romance between her father and Oscar Wilde, playwright and famous wit. In a novel that will be a humorous and poignant read, Jennifer and Oscar follow a trail of murder and revolution, through Paris, to London and Ireland, and into conflict with secret government organisations, a British occult spy network, and the Irish Revolutionary Army. Unlikely Revolutionaries: A Point & Click 2D Adventure (PC) is a free-roaming, open world adventure game that takes place in Paris, and London, with a modern Art Nouveau style for the first half, to create an intriguing fictional world. The game allows players to use a range of dialogue options to interact with characters, with the unique inventory system allowing characters and objects to be studied and opened, using Jennifer's artistic skills. Allowing for direct interaction with the environment and investigations, take control as Jennifer and Oscar, encountering and speaking to ghosts who have no answers. There are several different endings, depending on the choices made. Features Unlikely Revolutionaries: A Point & Click 2D Adventure is a striking point & click adventure game, created in the same style of The Whispered World: Three Tales of Arthur's Britain. In contrast with a conventional linear game, the player can choose to talk to living and dead characters, who give different responses, and explore the world of the story. The story takes place in 1922, when romance, espionage, murder and revolution are all commonplace. Characters are intricately linked to each other, and have either shared histories or secrets to reveal. The use of Jennifer's fine art background is evident in the inventory design, as she uses her creative skills to solve puzzles. Santa's Big Sack

Welcome to the world of Dog Eat Dog! You play as one of four different “classes” on a quest to win the game in order to be crowned the undisputed champion. The different classes you will play as are: The Trailblazer - The first to arrive on the scene, you have the freedom to achieve victory from anywhere on the map. The Win Collector - You are the defender of the common man and will make sure that no one lays a finger on any of your money. The Con Artist - You’ve got a finger on the pulse of the economy; you know just where to go and when to go there to make sure you’re the winner. The Madman - You lead the charge, never looking back, all guns blazing. The game is set in the fictional city of Dogstown. Players are forced to make decisions at the risk of losing money or getting in trouble. You must make the right call - and fast! Through strategic placement, the game requires players to use stealth, bluff, and aggression to get their opponents to misbehave and lose. In doing so, the player can secure money by curating a carefully executed plan in order to become the town’s ultimate winner. Key Features: A unique card-based mechanic for direct player interaction. Over 30 different abilities to boost your toolkit. The game is set in a questing hub where players can play free or purchase DLC.Q: TextView properties in Android If I have a TextView in an application and set the width to 100px, how do I find out the actual width of that textview (say to output to a server side URL) as opposed to what the phone's display thinks that the width is? A: Get the View's intrinsic width using view.getWidth() - in the case of a text view, this will be the text width as set in xml (dimensions) - it will be the width the text view's layout has decided should be there. Enrichment of X-chromosome DNA by the CEL-Seq2 method. The availability of an organism's whole genome sequence enables us to determine the gender of most individuals in the world. In "Logistics Simulator" you can manage a company that provides transportation services. The delivery of the cargo is done by using various vehicles such as trucks, buses or trains. It seems simple, right? However, the basic design of this game is not simple at all. The design is brilliantly tactical, so you will have to play a game which is as challenging as chess. You can decide whether to use your own fleet or hire others to serve you. The new feature will allow you to set a pricing strategy to suit your preferences. The game is designed to be played with a large number of players, so you can set up a real-life company with your friends in this game. The game also includes a party mode which allows players to enjoy a game even at the same time without any form of communication. Of course, it is possible to win a game by yourself, too. Your rivals are created procedurally and update their strategy. If you are up to the challenge, you can try that too. The game has various features in common with other games that are fun to play together: It's easy to play at any time and it's easy to find many people to play with. There is no need to contact and become friends with people. They will be created automatically and update their strategy as time goes by. Choosing a career is a great way to get more money. You can choose any kind of job you want, like truck driver, stock manager or even CEO. In the game, you can set a strategy that suits your preferences. You can decide whether to work with your own fleet or to hire others. In addition to this, you can also design your own warehouse as you wish. You can decide whether to offer multi-destination services or to only provide local or domestic services. The game has various features in common with other games that are fun to play together: It's easy to play at any time and it's easy to find many people to play with. There is no need to contact and become friends with people. You can choose an offline game or an online game. The variety of the game allows you to enjoy it anytime. Equipped with a realistic virtual economy, you can design your own strategy and business plan. You can decide whether to offer multi-destination services or to only provide local or domestic services. You can choose a city and country you want to operate.

What's new in Santa's Big Sack:

“In the book of life, the names are all written down, two in each class, one from each parent, the rear-grade from the father and the front-grade from the mother: and you do well if you get to the other side alive.” Baseball in the league is done, pitchers and catchers report to Arizona, and so begins the new season of bitter rivalries. Duck-teedling filled the Washington Nationals home park and bricking wasn't lacking. Chippewa County no longer feels small. The Mason Dixon Line has never been closer for the Cincinnati Reds and the Chicago Cubs. Now the Los Angeles Dodgers have arrived in DC. The Pirates are the closest thing the region currently has to a playoff team in 2019, but like their closer—Steve Cishek—Pittsburgh won't be around once the postseason comes around. That's why the Washington Nationals have tried so hard to stay in front of the pack. The defending National League pennant winners have made strides on the field over the last few seasons. The bullpen has seen key changes, and Tanner Roark, the franchise's all-time win leader, has returned to the Washington rotation. Still, the Nationals' 2018 lineup looks very similar, but only outfielder Bryce Harper is still with the team. Now the Nationals enter a difficult “Wild Card” era, a first for the franchise, and the last year of the current TV deal, a trying time for baseball. The Lightning signed their first round pick from the 2018 NHL Draft in goaltender Sergey Zubov, and on Opening Day, the Lightning's top pick of 2018, forward Dennis Hise—also known as “The Finger Blazer”—brought the Maurice Richard trophy home to Snellville. The Lightning stood between two Stanley Cup champions, winning their first game of the 2018-19 season. Yet the Capitals season wasn't quite what it appeared to be on the surface. Even though the entire team was healthier this season than last year, Washington struggled. The Lightning had a goal of their own in mind in opening the season—to show fans they could protect and extend their lead over the Capitals in the Southeast. As Opening Day came around, it looked like these goals would be in the cards. Four years ago, the Capitals had a fluke season. While they claimed the

Welcome to a summer day's paradise. Who knew that the human's desire would become an adorable love story? Perfect and fatalistic love. Asymptotic and love triangle. So the story begins! Please enjoy this simple, yet thorough love story. The time you spend here, may be the greatest part of your life. (?) Story: The protagonist is a 19-year old guy who's all alone in the world. At this point, he's working as a delivery boy for a convenience store. One day, he offers protection to a girl named Bell who's all alone as well. His plan to protect her goes horribly wrong, and she faints as a result. Seeing the girl faint, he tries to wake her up. He gently rubs her head before hugging her, and she finally opens her eyes. She looks at him, and her entire body freezes up. (?) (She knows who he is.) Her eyes look around the room like a stranger who's lost in a labyrinth, and her face shows a confused and anxious expression. She thinks it's a dream. The protagonist tries to change this dream-like situation as much as he can, but he finds that it's simply not working. (?) (She's confused.) (She's confused.) (The confusion continues to grow.) (She's scared and trembling.) (Terrified.) (I don't want this to become a reality.) (What's going on?) (It doesn't seem to be a dream anymore.) (I'm lost in this dream-like situation.) (I'm terrified.) (I'm terrified.) (I can't remember anything.) (I don't want to be like this anymore.) (I don't want to be like this anymore.) (To get out of this dream-like situation.) (I don't want this to become reality.) The girl starts to lose control of herself. (I want to wake up from this dream-like situation.) She cries silently. She may have lost all her memories. (I want to wake up.) When she says "Wake up, please," she falls to the ground. The protagonist gently takes her hand and helps her up. (He wants to help her get out of this dream-like situation.) (
