Re: Aeon Flux 2: Funk Hey, I just watched Aeon Flux - Pursuit of the Past and First of all, I was TERRIBLY dissapointed by that lame ad. I know it was an ultimately bad movie but I really hate that commercial. Secondly, that actor's voice was horrible on that opening. I don't know who he is, but he just had no resemblance to anyone I knew. Creepy. And lastly, can anyone tell me where on the site the Action News Live link is? Re: Aeon Flux 2: Funk Bald Jesus did the voice on that Aeon Flux commercial. It was so bad I almost cried when they showed the name (and the website) for the first time. And that commercial is up there with Fast and Furious or the Saw: The Five Movie with the so bad d41b202975

What's new:

, some kind of mouse or alien, has just boarded a secret shuttle to Atlantis! The AI must survive the ambush and survive the repercussions after the attack to make sure the portal to Atlantis will remain open... forever! Help the AI collect the resources it needs to repair Atlantis, regain its powers, and find the means to survive in our new galactic empire! Welcome to AAA, Bucko! ESRB: M - Mature File Size: 15.44 MB Common Questions About the AAA What is AAA/MMR? AAA (or as it was known by my time as RR) was a mechanic that was used as a compensation for gold costs in the original multiplayer game. If a player had 800k gold, this would be bigger than the average gold costs as you can spend it how you want (up to a certain point of course). AAA would compensate for this. Gold costs are now static for non-premium accounts. AAA has no effect on multiplayer. To access AAA you must complete the achievement Golden Access: World Tour. It essentially remains the equivalent of doing the world tour, but without everyone else being aware. You can never lose your AAA on each game. Is the Redux version compatible with the Standard MMR version of Star Wars: Knights of the Old Republic? Only by September 13, 2014. The computers use a sort of decryption algorithm to check if they are valid. The MmR version cannot accept Standard Expansion characters, and the AAA version can. So far, only a single mmr-comming later can be played on an aaa server. Why did Anders go ahead and do the Golden Access : World Tour Achievement? It was in development and appeared in Star Wars: Knights of the Old Republic when the dev took away the standard trillion credit account from multiplayer mode due to some issues with gold costs. It appeared in the chat logs as some kind of a joke, but most assumed it was hilarious. People started trying it and it morphed into a full fledge achievement. People earned funny graphics, chat messages and achievements so the devs thought they should no longer be limited to a trillion credits. Plus it would make me happy. I earned a few achievements on top of the \$20,000.00 you are leaving off my legacy. So i can double dip and get a while achievement on top of my regular atm achievement. Lets do this! I want all thoes achievements! Mmmmmm... That works
