In this crossover comic story, Mickey Mouse, stranded at sea, sees an island in the distance and manages to swim there. He soon discovers that the island is none other than Pleasure Island. The Coachman's fair has fallen into disrepair, some parts of the island having even reverted to a wild jungle; Mickey comments that it seems to have been abandoned for years (confirming that the Coachman did get his comeuppance at some point after the original movie). Mickey faces Maleficent on the island, but the witch is destroyed as the Nothing (a magic phenomenon of unknown origins which provides the main conflict for the story) eats up the whole island. Mickey is saved in extremeis by Dumbo as the last parts of the cursed island fall into oblivion.
